QUALIFICATION

PhD ANTHROPOLOGY, Quaid-i-Azam University, Islamabad

THESIS: IMPACT OF DEVELOPMENT ON SOCIO-ECONOMIC STRUCTURES

This thesis intends to understand the cultural perception of development and its impact on the socio-economic structures including economy, education and health in the province of Balochistan, Pakistan. The focus of this study was to understand the nature of development, internal and external factors responsible for the changes and the actual beneficiaries of the development. The research was conducted in Zandra village of district Ziarat in the province of Balochistan. World system theory was used to map the developmental process. Anthropological research techniques were used to collect data for the thesis. The fieldwork for this research was conducted in 2006-07.
